Crown Point Emergency Management

Kelly Miller
Deputy Director
Crown Point Emergency Management

Terrorism

Terrorism may involve devastating acts using weapons of mass destruction. These weapons range from chemical agents, biological hazards, a radiological or nuclear device, and other explosives. The primary objective of a terrorist is to create widespread fear.

Be Responsible:

- Be aware of your surroundings. Note the location of emergency exits, pay phones, fire alarms and fire extinguishers.
- Report suspicious objects, vehicles or persons to public safety authorities.

If There Is a Terrorist Attack or Threat:

- Stay calm.
- Be vigilant. Look out for secondary hazards such as falling debris, suspicious packages or persons. Report any concerns to public safety authorities.
- Follow the instructions of emergency service personnel.
- Avoid spreading rumors – confirm information with a credible source. Rumors can cause the spread of panic amongst people. Try to stick to the basic information and ensure those around you are ok.
